

Another Silent Night

Santa where'd you go
Haven't seen you in years
You passed by me so many times now it's not fair
I knew that I'd get older
Didn't know that would mean
You would join the list of friends I no longer see
All this fuss over the holiday
But a party for one just doesn't feel the same

(chorus)

Here I am, all alone
Hiding inside from the cold
I feel so blue in all this red and green
It's just a sad reminder for me
The world outside gathers loud and bright
But from where I sit
It's just another silent night

No need for lots of gifts
In a big empty place
But when it's just you, oh, the money you save
Of course, I tend to wonder what it'd be like with company
But with no one comin' over there's no need for a tree
All is calm when there ain't no one around
But in these four walls silence is the only sound

(repeat chorus)

Even the season can't hide
Or fill up what's empty inside
That is why Christmas time's just a day gone by

(repeat chorus)

All this fuss over the holiday
But a party for one just doesn't feel the same
The world outside gathers loud and bright
But from where I sit
It's just another silent night
