

Livin' For The Now

So it's been another long day
But it's all right, it's all right
Everything just went the wrong way
But it's all right, it's all right
And I'm gonna turn it all around
And try to burn the sun outta the sky
Oh, baby take my hand

(chorus)

Dance away the night
Feelin' so right
Spinnin' around like a satellite
We're gonna dance until the stars come crashin' down
Forget about the day
Can't change it anyway
Let it go and get lost in the sound
Livin' for the now

We'll turn the street into a dancefloor
Let the moonlight be our spotlight
We'll find a way to make a memory
Tonight all right
And why would we waste another moment
Why would we chase away the only
Time we have to make it last

(repeat chorus)

(bridge)

Don't run away
Don't run away from me
Don't run away
We'll find a way
To make this night the best that it can be
