

Naughty

What'cha doin' baby later on tonight
I got a burnin' feelin' and only you can make it right
I've waited so long now to hold you close to me
So hurry, hurry honey let me show you what I mean
Waitin' all the night, everything's just right now baby
Gonna get up in it and make you be my lady

(chorus)

Why don'tcha boogie on over tonight, ooh
Feelin' a little naughty baby, woohoo
Why don'tcha boogie on over tonight, ooh
Feelin' a little naughty baby, yeah

Don't wait too long now baby
The candle's burnin' low (burnin' down now)
Got a bottle of wine that I've been suppin' down real slow
(Sippin' down real slow)
Ooh, I want it so bad now, I know you want it too
So don't be shy, baby come on by
Let me tell ya what I'm gonna do (here's what I'm gonna do)
Waitin' all the night, everything's just right now baby
Gonna get up in it and make you be my lady

(repeat chorus)

The door's unlocked now, I'll see you in a minute
You don't need to knock or ring the bell, just come on it it (come on now)
Is this our secret or you gonna tell all of your friends (tellin' everybody)
Who cares, once you get here baby I hope it never ever ends
Waitin' all the night, everything's just right now baby
Gonna get up in it and make you be my lady

(repeat chorus)
