

Wild Heart

We were friends one day, now the feelings have changed
Girl I love you, and I need somebody
And when you're far away, ooh, I hope and pray
That you need me, 'cause I need you
I can sense in your smile
That you want me 'cause I want you
I could see it in your eyes
Oh Lord, it must be true
Am I wastin' my time thinkin' of you

We would talk all night, until the bright mornin' light
We took walks in the park and watched the stars up in heaven
Those days have since gone by, yet we still laugh and cry
'Cause true love it can last forever
Oh, I sense it in your smile
That you want me 'cause I want you
I could see it in your eyes
Oh Lord, it must be true
Am I wastin' my time thinkin' of you

(chorus)

Wild heart set me free
All my love is yours to keep
Heaven sent you I believe
Sent you here for me

We would talk all night, until the bright mornin' light
We took walks in the park and watched the stars up in heaven
Those days have since gone by, yet we still laugh and cry
'Cause true love it can last forever
Oh, I sense it in your smile
That you want me 'cause I want you
I could see it in your eyes
Oh Lord, it must be true
Am I wastin' my time thinkin' of you

(repeat chorus)
