

Where The Bottle Breaks

We said we'd talk it out tomorrow
But tomorrow never came
Built a wall of empty bottles
Between the anger and the blame
You turn away, I pour a drink
Swallow what I couldn't say
Kept the pressure in the glass
'Till the lies got in the way

(chorus)

This is where the bottle breaks
Where the quiet cracks
Where the silence shakes
Where the fights we never had
Come spillin' out so fast
All the hurt we tried to fake
Finally shows its face
This is where the bottle breaks

Your eyes are loaded like a gun
I feel the shot before it fires
We tiptoe 'round the damage done
Both of us worn down and tired
Every toast another crack
In a glass that we can't hold
We've been holdin' back a flood
'Til the dam can't bear the load

(repeat chorus)

(bridge)

I don't know how we got here
I don't know how we mend
But what we bottled up so long
Has to spill out in the end

(repeat chorus)
